ITRW

A Journey Through Ancient Egyptian Civilization

ITRW is an AI-powered cinematic documentary that explores the history of Ancient Egypt through the journey of the Nile River. Tracing the legacy of Egypt’s greatest kings and queens, the film brings their stories, achievements, and historical landmarks to life through AI-generated visuals, cinematic storytelling, and digital production techniques.

The project aims to celebrate Egypt’s rich heritage, connect the past with the present, and present its civilization through an innovative visual experience.
